"Boys will be boys" only if their energy and brawn are kept up to top-notch.

Every time a boy uses up 5½ parts of energy he uses up 1 part of brawn tissue.

Therefore, the food he eats about replace that lost energy and rawn in the ratio of 514 to 1. Oats will do it almost exactly.

So when you give your children porridge made of Tillson's Rolled Oats, you are giving them the right food to make sturdy, ruddy-cheeked youngsters.

Instant Postum

This new food-drink is rapidly taking the place of tea and coffed as a stable beverage in many homes. While it has fine flavour and aroma it is absolutely pure and free from the harmful drug, "caffeins," or any other injurious element.

Instant Postum requires no boiling. It is made by stirring; a level teaspoonful in a cup of hot water and adding cream and sugar to taste. Grocers sell it everywhere - 90 to 100 cup tins 50c. 45 to 50 cup tins 30c. Send for a sample now.

Clocks have a definite use

Some are made to tell you that it's morning.
Others measure time for the work in the kitchen. Some are voiceless, others sound the hour from end to end of the house.

Some are a little larger than a good sized watch.

Others are big and bigger and biggest. But each is intended for a certain purpose.

Needing one in your house?

You'll find what you are looking for right here— clocks of all sizes for all uses at all prices.

WAS BANK CERTIFICATE HELD UP FOR POLITICAL REASONS?

Seldom has so grave a statement been made on the floor of Par "liament as that which startful the House lost week when Sir Bolophe Floorget, having been attacked in his absonce, gave the House a clear statement of the financing of the Bank International, the Quebec mer-ger and the Quebec and Seguenny Hallway, and destruct that political considerations, had actuated the former tovernment in withholding the crificate of the Hort. Havenstrian

considerations had actuated the former Government in withholding the certificate of the Bank International.

"I may say," said Sir Hodolphie, "that the principal reason was that I was running in Montmornery against the son of the president of the Transcontinental Railway Commission, the boson friend of the

leader of the Opposition."

Sir Wilfrid Laurier, evidently laboring under considerable feeling got up and denied this statement. The certificate, he said, had been ed because one of the directors had not been duly qualified whe

Sir Redolphe Forget then said: "Eight directors out of nine wer elected. I remember that objection was taken because one of the directors had his shares in his firm's name, but let me say that the Hon. Mr. Parent came to me in the Chateau Frontenae and offered that if 1 would not run in Montmorency he would get me the license." Sir Wilfrid Laurier is an old hand at the Parliamentary game. As

in Wilfrid Louiser is an old hand at the Tarliamentary game. As a rule his feeling are pretty well under central and pretty, well con-called. It was not so under the Fernet revelution. The Opposition leader was attruct of Sir Ricolophe Forget. He rose to his feet, and speaking with apparent difficulty, declared that he glower mothing of what Mr. Parent might have done. Giving way to his anger he added that he did not believe that Mr. Parent ever anything of the kind.

Sir Rodolphe Forget promptly added details. "The offer was made at 2 o'clock in the morning in the Chattern Frontiers, and he abled a larder in offening to have one chattern frontiers, and he abled a larder in offening to have one elected by acclamation in Charlevava I fold him that 1 knew we would get the hence because we had done more than the have required. POSTUM

These doctors represent but a fraction of the thousands of physicians who use Postum in place of tea and coffee in their homes and in their practice.

> Cases of shaky nerves, irritable hearts, indigestion, biliousness, headache and sleeplessness, due to tea or coffee drinking, are observed in the everyday experience of medical men everywhers.

Following the change from tea or coffee to Postum, the ailing one quickly discovers that the Doctor's advice to "quit tea and coffee and use Postum" was sound,

TEN MILLIONS FOR AGRICULTURE

Hon, Martin Burrell, Minister of Agriculture, intre

Hon. Martin Barrell, Minister of Agriculture, introduced last week his Bill, to encourage agriculture. It provides for an expenditure of ten million dollars apread over ten years and to be spent in o-operation with the provincial governments largely on agricultural education with the provincial governments largely on agricultural education. In his manifester of August 14, 1011, before the last election, Mr., Borders said that if he were Premier he would provide for "the granting of Bieral assistance to the provinces for the purpose of supplementing and extending the work of agricultural education, and for the tring and extending the work of agricultural concation, and for the rovement of agriculture."

This was the promise and it is being carried out to a dot. The

This was the promise and it is being carried out to a dot. The general plan of the Minister of Agriculture was explained by him is his speech. It follows the recommendations of Mr. C. C. James, for the proposed of the prop 100,000. From then until 1933, the amount remains at that sum. There is appearing in full Window mainten it the plan of distribution of the Spoon,000 for this year. First Sax,000 to its to be shared among the veterinary colleges of the country. They are in the plant of the state of the country. They are in a sense antimol institutions and attract students from all parts of the Dominion. This leaves 860,000. Each province irrespective of population gas 850,000 a year. This is with a view to midding the small en provinces which have a larger rard population and whose main in the state of the state

If a man marries for money it's reace bet that his wife fails to get her, money's worth.

Dr. Arnold Lorand

Physician to the Baths, Carlsbad, Austria

In his recently published book, "Health Through Rational Diet." from the press of the F. A. Davis Co., Philadelphia, says:

As a breakfast food, another variety of the healthful cereals which is much used in America would be advantageous. Grape-Nuts, which is the floury substance has been dextrinized by long baking and thus rendered digestible and easy of assimilation, is eaten with cream and would be a useful addition to our usual breakfast.

The recommendation of this eminent European authority to the wealthiest health-seekers in the world (those who frequent the famous baths of Carlebad) is especially interesting to Americans.

Grape-N

FOOD

is sold by grocers almost everywhere in America for 15c the pkg. While Grape-Nuts may be a "health luxury" in Europe, this sturdy alth-giving food is within the reach of practically every American at

In thousands of families Grape-Nuts and cream is the regular breakfast dish of wide-awake, go ahead people.

Rich in the brain-making, body building elements of prime wheat and malted barley, this food hes won for itself at home and abroad the title of "The King of Breakfast Foods."

Did You Ever Count Your Own Heart-Beat?

The heart "thumps" when you run hard, It "flutters" from excitement and emotion.

Tea and Coffee-drinking makes it do both!

Many a person carries a fine watch and is mighty careful that no harm comes to his timepiece. I ticks 120 times each minute, and he winds it once a day.

His heart (wound up for a lifetime) beats about 72 times each minute, but he gives it little or no attention until Nature forces the fact home that it is working too fast or to slow.

If the watch ticked faster it would run down more quickly. How about the heart?

Thousands "whip" their hearts into unnatural action by the use of tea and coffee.

A cup of tea or coffee contains from 11-2 to 3 grains of caffeine, a poisonous drug. Its effects are subile, but sure.

A pretty good way to find out whether tea and coffee are harming YOU is to

THE GOVERNMENT'S PROPOSAL RE THE NAVAL GRANT

nament on the question of granting \$35,000,000 in aid of strengthen-ing the British navy, the Prime Minister, in the debate just before the Jaking of the vote, made the following statement, which is so clear and precise that we reproduce if. The whole policy is put in a nutshell, and cannot be misunderstood, except by those who are dishonestly

The proposal of the Government is not that we should hand over \$35,000.000 to the Admiratly to spend. Certain hon-gentlemen on the other side do not seem to understand our proposals. We propose that \$35,000.000 shall be expended by the Dominion of Canada, although, of course, expert assistance must be obtained as to the manner of that expenditure and that assistance can best be obtained from the Admirat. We do not propose that these ships shall pass out of the ownership Legislature non

"We propose that these ships shall remain in the ownership of Canas, that they shall be used in the normood defence of the Empire, and Abal, that they shall be used in the normood defence of the Empire, and Abal, farthermore, if the people of Canada desire to form a naval or gainstation of their own tenses shall be adopted to recall on the Common of the Commo "We say that the people of Canada do not desire that this measure submitted to them, we say that everything in it has been submitted

to them, and that the people passed upon it when they gave their decision, as they did with no uncertain voice, on September 21, 1911." Will the Grits in the face of this declaration, continue their denciations of the policy as a surrender of Canada's autonomy? If we were called upon to answer the question our reply would emphatically

ESTIMATES FOR GREAT DEVELOPMENTS

A generous expenditure to meet the growing needs of the country, provided for in the main estimates brought down in the House of mmons by Hon. W. T. White. The Finance Minister makes appro-lations, subject to the approval of Parliament, amounting to \$179, 353,183,28, an increase of \$9,925,815.80. Of this total the mnoun charged to revenue is \$125,850,338.28.

That these estimates are within the mark is easily shown. They That these estimates are within the mark is cashy shown. They speed for the fiscal year 1913-14. The revenues for the present fiscal year promise to reach, if they do not exceed, \$770,000,000. They should be even greater next year as there is no reason to expect that the presented of the presen ent rate of progress will not be maintained. Here is how the revenues

DEVELOPMENT OF CANADA'S FISHERIES

One of the most far-reaching and important endeavors yet made any government in Canada to encourage a great industry has recent-been made by the Hon. J. D. Hazen, Minister of Marine and Fish-is, in his appoointment of a new Fisheries Advisory Board to stimu-

by been made by the trom, j. 15. traces, eres, in his spootintent of a new Fisheries Advisory Board to stimulate the fisheries of Canada along the most desirable lines.

J. has been felt for a long time that on the whole there has been a sectious lack of progress in the fisheries of the Dominion of Canada. especially on the Atlantic coast. Apart from its fish-breeding oper-ations the work of the Fisheries Branch of the Department has in the post in a large measure been confined to providing and enforcing regu-

ons for the protection of certain fisheries.

With an efficient organization of capable men the Minister of Marine and Fisheries thought that much good could be accomplished Mannie and resources thought that much good could be accomplished and with this cend in view he has appointed a very strong board of men representative of both the producers or fishermen and the canners or curers and fish merchants. The board is composed of thirteen members and will act in conjunction with certain officials of the Marine and Fisheries Department.

The province of Nova Scotia has been given three representatives, to represent the banking vessels, one the inshore fishermen, and one one to represent the banking vessels, one the inshore fishermen, and one title fish merchasts and canners. This large number is given to Nova Scotia ion account of the diversity of conditions and the great value of blff fisheries. Now Brunnwick gets also three representatives and the inher provinces represented get one early except in British Columbia Where conditions are much diversified, with the large salmon fishing industry and the deep sea fisheries, and here there are two members.

Apart from Nova Scotia the representation of the fish merchants has not been emphasized as far as the Maritime Provinces are concerned. It is well understood that Halifax is very largely the distribution. cemed. It is well understood that Hailian is very largely the distrib-uting point for cured fish and in the other provinces those interested in the catching of fish in a great measure, are engaged in the sale of fish as well so that the members from such provinces smooth doe in a position to represent those engaged in the sale of fish as well, as the fishermen. The Department of Marine and Fisheries is in the represented by fife principal officers engaged in the administration of the fisheries. The deputy minister will be ex-officio chairman of the board, and the other representatives will be the superintendent of fisheries, the assistant to the superintendent, the expert in the curing and handling of fish and

to the superinteneout, the expert in the curing and handling of lish and the commissioner of lisheries.

** For the purpose of dealing with fisheries in the provinces, one for the Payiffe provinces, one for the Payiffe provinces, and one for British provinces, one for the Atlantic provinces, and one for British provinces, one for the Payiffe provinces, and one for British provinces, the provinces of the provinces and the provinces of the provinces are provinced by the provinces and the provinces are provinced by the provi Pasific prurinces, one.

Columbia. The major portion of the work of the board will necessarlify have to be done through the committees. The board will not meet
therefore more than oncege during any calendar year. Owing to the desirability of the officers[d] file department of marine and fisheries take

of the officers of the department of marine and property of the

order of the different committees they will not be ing part in the meetings of the different committees they will not be convened at the same time, and will meet semi-annually. They will meet before the opening of the fishing season, and at the close.

The Atlantic committee of the hoard will convene at the Depart-nt of Marine and Fisheries, Ottawa, on the first Tuesday in April. and October of each year, the Prairie committee on the second Tues-day, and the British Columbia on the third Tuesday of these months. The members of the board will not receive a salary, but those outide of the department will be paid an allowance of S10 a day and trav-lling expenses, when attending the meetings of the committee.

As the fisheries of Ontario and those of the inland portion of Que-

c have since a decision of the Imperial Privy Council in the fisheries ference of 1898, been administered by the provinces themselves these ference of 1898, been administered by the provinces the ortions of Canada will not be represented on the board.

and caffeine is the subtle but vicious drug in tea and coffee that irritates the heart, impairs digestion and upsets the nerves.

Each cup contains from 1 1-2 to 3 grains of this habit-forming,

health-destroying drug. So far as known no tea or coffee is sold today (however processed or

prepared) that is free from caffeine. If tea or coffee is "getting" you, and if you wish to leave the head-nche, biliousness, indigestion and nervousness of tea and coffee drink ing behind, the sofe and easy way is to quit and use

This richly flavored table beverage is guaranteed absolutely pure and free from caffeine or any other harmful element.

A Few Outstanding Facts

FROM THE

SIXTY-SIXTH ANNUAL REPORT OF THE

CANADA LIFE

ASSURANCE COMPANY

Splendid Year.

In important respects the Company in 1912 excelled its record for any previous year in its history,

Surplus Earnings.

THE SURPLUS EARNED in 1912 was \$4,530,667, dung by over \$257,000 the carnings of 1911, and by a larger amount the earnings of any previous year.

Interest Rate Increasing. THE INCOME of \$1,295,760 was greater than that of the previous year by \$555,500, and the greatest in the Com-pany's history. The rate of interest carnel, which had been steadily advancing since 1829, was further improved in 1912. This is an important factor in producing surphs.

Record Growth.

THE ASSETS were increased by \$1,044,182, and now stand at \$18,301,523. This growth surpasses that of any pre-vious year.

Another Record 1 THE NEW PAID-FOR POLICIES amounted to \$15.512,223, exceeding the amount of the best previous year, 1911, by over \$1,000,100. THE TOTAL ASSURANCES now in force are for \$111,877,070.

Payments

THE PAYMENTS TO POLICYHOLDERS in '1912 totalled \$2,622,955, an increase of \$167,891 over those of 1911, in addition to this, LOANS TO POLICYHOLDERS on secur-ity of their pelicy contracts were made for \$1,255,619.

6. THE CANADA LIFE now values \$76,500,000 of its bestiness on a 2%, basis, and slot,400,000 at 21 c/5, which means that its Reserves are much stronger than are required by any toverment huarance Department on this continent.

THREE MINERS RELEASED MINISTER OF LABOR ACTS

The Minister of Labor, the Hon, W. T. Crothers, has shown by the efforts which he has put forth on behalf of the three men who were recently convicted of offences in North Bay under the Industrial Disputes Act, that he has the welfare of all classes of the laboring community at heart. The men were sentenced at North Bay in connection with miners' strike. They had been unable to pay their fines and in de-lt had been sent to prison for three months.

The Minister on his own initiative investigated the circumstances

under which the men had been imprisoned, and at his instance they are now free on tickets of leave. The Minister went into the cases and learned the following facts which, he felt, justified him in that action

learned the following lasts when, he left, justified him in that after which the afferwards pursued.

In the Procupine district, the miners at fine miners joined not as application for a Board of Concillation under the In-dustrial Dilease Act, which was grained. An award was made which with a pullease and went on strike, as they had a right do. A fittle later the miners at the Hollinger Mine, who had not sed in the application or made any other, and therefore were prohibited from striking, notwithstanding, went on strike, and some 200 of them were summoned to appear before Magistrate Torranee, charged with offences under the Act. Two of them were convicted for inciting others to strike and were fined \$500 each or in default of payment to three months' imprisonment, and one man was convicted of going on strike and was fined \$50 or three months. An appeal from all these convictions was entered. Unable to pay the fine or to get bail these three men on the 24th of January were confined in the jail at North

The Minister of Labor then felt that he should come to the relief of the men as the circumstances of the case were a little unusual with the result that tickets of leave were issued for the three men and the Sheriff of North Bay released them.

The Hon. Mr. Crothers has on other occasions in the past she

his sympathy with the workingmen of the country and this new in-stance is but another added to those which have gone before.

In Ancient Mexico, so highly esteemed were cocoa beans that they were used as money.

150 average-sized cocoa beans equalled about sixpence.

The high value placed upon chocolate was well deserved. Neither coffee, tea nor milk can offer the food value found in well-made cocoa.

Lowney's Cocoa is simply cocoa at its best. Its fine, full flavor is skillfully coaxed out of the world's choicest cocoa beans by careful roasting, blending, grinding, watching.

Lowney's is a splendid and delicious food drink. As it is absolutely pure and free from excess oil-iness, it is assimilated readily.

Made in our spic-and-span Montreal factory, Lowney's Cocoa comes to you freshly tinned.

That Cheerful Taste!

Perhaps you never heard of a "checrful" taste, but that certainly does describe the taste of Tillson's Rolled Oats.

When a teaspoonful of this delicious porridge rubs against your palate it makes you feel like smiling.

Oats have a natural flavor that is particularly pleusing. And Tilson's have all the flavor that Nature put into the out-grains as they grew to tasty perfection under the sunny skies of Canada.

What kind of a worker are you?

That is a doublebarreled question. It aims both at the kind of work you do and at how well you do it.

1. No matter what your work may be, when you're doing it you're using up energy and tissue at the ratio of 55' to 1. So you should eat the kind of 160d which supplies energy and tissue in the same ratio. Tilson's Rolled Oats does it almost exactly. Besides oats, mother's milk is the only other food that does.

How well you do your work depends very largely upon how healthy is your digestion. Scientists say that there are few foods as easily digested as good rolled oats. And there are no other rolled oats quite so

Do you judge cocoa by its color?

Much of the cocon sold in Canada today has a darker color than Lowney's.

The very dark cocons are nearly always produced by an alkali process.

A leading English authority on the action of drugs says this about alkali cocoas:

"The sustained administration of alkalis and their carbonates renders the blood poorer in solids and in red corpuscles and impairs the nutrition of the body." Lowney's color is just the color of pure cocoa. Lowney's has no added alkali, starch or other addreams. It is produced in our spotless Mon-treal factory. No cocoa can be purer.

The flavor is full, rich and delicious. Lowney's

For Everyone at Bedtime-FRY'S

Little bodies and big bodies alike get great good from this rich, pure beverage. Taken at bedtime FRY'S Cocca satisfies that need for "a little something" that the appetite craves. It's a drink, yet it's a food too—the ideal way to take nourishment just before sleep.

So finely prepared, so soluble is FRY'S, that it is ready for immediate absorption into the system. Isn't it better to drink FRY'S, the food beverage beyond compare, than just tea or coffee-which are simple infusions, without nourishment? But, of course—

Smart Styles For Spring

We have the sort of clothes that lift a man above the level of the ordinary dresser.

Our Garments are always "Smart" and always "different."

While your reputation depends to a certain extent on the sort of clothes you wear, our reputation depends entirely on the sort of clothes we sell you and for this reason we guard against the "ordinary" in our offerings to our trade.

The New Spring Garments ments are beauties. We are showing all the New English and American Style Features.

Turn your steps this way for Clothes that will mark you as a well dressed man.

COMMONS RAILWAY COMMITTEE PROTECT PROVINCIAL RIGHTS

A better era for the provinces in their relations to the Federa power in September, 1911. There have be ernment was returned

It has for many years been the complaint of Ontario in pa It has for many years been the compaint of Ontario in particular, but of other provinces as well, that any railway promoters who desired to excape the provincial jurisdiction could do so by inserting the temperature of the provincial jurisdiction could do so by inserting the till, and obtaining a Dominion charter. Dozene of Ilittie railways, obtaining a Dominion charter. Dozens of little railway years, obtained Dominion charters, although unable to show any valid reason whatever why they should thus be exempted from the jurisdic-

session. The action of the committee was all the more notable in that it was practically the first instance where railway promoters had been given notice that they would have to observe provincial rights. The Issan that was impressed has received hearty commendation in On-tring, and it unquestionably marks a new and important era in zritations between the province and Domnision. It recognizes the rights of the more control of the more control of the co relations between the province and Dominion. It recognizes the rights of the province to control its own affairs and it gives that provincial control the recognition of the Dominion Parliament. It is a lesson that will not be lost on railway promoters who have been so prone to seek escape from provincial supervision.

Less than 1/4 of a bushel of oats as it comes into our mills goes out as Tillson's Rolled Oats.

By the time we have cleaned, hulled and graded the cats, the selection we make for Tillson's is less than 25% of the whole bushel. That shows you how carefully the oats for Tillson's are selected.

When you open a package of Tillson's you get a visible demonstration of this in the large, round, unbroken flakes. Such flakes can be made only of the most perfect, plumpest oat grains.

If you have not yet eaten porridge made from Tillson's you have a new tre ing to you. There's no other quite so delicious.
